Career Objective

A passionate and detail-oriented frontend developer with a strong foundation in React.js and modern web technologies. Eager to contribute to a dynamic team environment, continuously learn, and grow in the tech industry.

Skills

Frontend: JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, DaisyUI

Backend: Node.js, Express.js, MongoDB

Other Technologies & Tools:
Includes routing, authentication, version control, deployment & API management tools:
React Router, Firebase Auth, Axios, REST API, JWT, Git, GitHub, VS Code, Netlify, Vercel

Projects

1. Recipe Share Online Platform

Overview: A MERN stack-based recipe sharing platform where users can create, read, update and delete their creative recipes.

Live Site | Client GitHub | Server GitHub

  Major Features:
- Full CRUD operations for recipes
- User authentication and protected routes
- Responsive and user-friendly UI

2. Event Management Platform

Overview: A simple MERN stack platform where users can create, join, and manage events.

Live Site | Client GitHub | Server GitHub

Major Features:
- Event creation with future date validation
- Join/unjoin events and view upcoming ones
- Dynamic event detail page
- Authenticated user dashboard to manage joined/created events
